

Facts in a class of its own.

Every day, teachers and other pedagogics have to find interesting and relevant topics to their classes. As printed facts in books gets outdated fast, and online search is time-consuming, many school professionals would benefit greatly from a better way to find information.

Factlab is your online resource for finding facts and statistics. A world of facts at your fingertips. Facts that you can rely on, knowing that they are valid and up to date. Start planning your next class with Factlab, and engage your students with fun facts.

Facts for teachers.

Prepare your next class or lecture, or use Factlab in your classroom. As a teacher, you and your students can easily find millions of facts in one easy-to-use interface. The possibility to analyze and compare facts will deepen your student's understanding. Referred facts can also be used to highlight the importance of source criticism.

Factlab is always free to use. In addition, teachers and schools can register for premium features, and experience the lab without ads. With an API connection you can improve your educational material with interactive diagrams and automatic links to original sources. With custom theming of colors and style, the facts seamlessly fit your school's graphic profile.

Teach source criticism

Counteract alternative facts and fake news.

“With Factlab, your educational material is always up-to-date”

Get your facts straight.

Factlab is a unique big data hub, with facts from referred sources. In an intuitive interface, users can quickly search, filter and compare relevant facts from all over the world. Our facts come directly from the source, clean from any interpretation and agenda. Just as facts should be. Straight facts only.

Factlab is proud to be independent, neutral and transparent. We present the facts, you draw the conclusions. By empowering people with unbiased facts, everyone gets an opportunity to shape their view of the world on valid grounds. This is how we support our vision of creating a more knowledgeable world.
